## Professional Summary

---

I am a full stack blockchain developer with over 7 years of experience in smart contract development, DApp, NFT Mint/Staking/Marketplace, bot program. I have a rich experience in full stack web development too.

When working on a new project, I like to speak with my clients so that i can have a clear understanding of their needs vision of the project.

We will have a talk in every step of project development. I think it is satisfied client.

I will try to provide the best results in a short time, and make your idea in your head reality.
