Full Stack Software Engineer

Technical Skills

- Programming Languages:
HTML/CSS/ JavaScript
TypeScript
PHP
Python
- Front-End Frameworks:
Vue, Nuxt
Angular
React(Redux)
React Native
Flutter
Bootstrap
- Back-End Frameworks:
Laravel
Node
Django
- Extra
Azure Dev Ops
Git/Gitlab
Jira
AWS

Education

Tsinghua University
Bachelor of Computer Science (BCompSc)
2011-2015

Summary

Full Stack Software Engineer with 7+ years with proven experience in helping companies create and maintain a better code base for reusability.

I've worked in software engineering for my entire over 7years programming history.

I am beyond confident in my abilities and I possess strong abilities in troubleshooting & problem solving and this can be convey clearly whilst communicating this across a team or to an individual client/company.

I'm a dedicated Full Stack developer with a broad and versatile coding skill.

After getting a Master's degree in computer science, I have worked for some large global companies – developing mostly web application for 8 years.

And I had also quickly helped startups and enterprises with prototypes and ideas by efficiently building those things into reality.

As a software Engineer I always have a creative and innovative mind behind programming & design software architecture.
