Education

Bachelor of Science (BS)
Simon Fraser University
Burnaby, BC, Canada V5A 1S6

2010 - 2014

I pursued a Bachelor of Science degree in Computer Science at Simon Fraser University with a passion for technology and a drive to build a strong foundation in computer science principles. Throughout my academic journey, I embraced hands-on learning, participated in student organizations, and completed a co-op placement to gain real-world experience. I graduated equipped with technical expertise and a commitment to making a positive impact in the tech industry.

After graduation, I transitioned seamlessly into the professional realm, leveraging my education and experiences to excel in my career as a software developer.

EMILY CHEN
Seasoned Software Developer

👤 Professional Overview

Dynamic and ambitious Software Developer with a Bachelor of Computer Science from Simon Fraser University. Proficient in full-stack web development, with expertise in frontend technologies such as HTML, CSS, JavaScript, and backend frameworks including Node.js and Express.js. Experienced in collaborating with cross-functional teams to deliver innovative software solutions. Passionate about continuous learning and staying updated on emerging technologies.

💼 Work Experience

Fiix Software   Jul 2015 – Oct 2023

Progressed from an internship role to a Senior Software Developer position at Fiix Software, contributing technical expertise, leadership, and innovation to drive the development of the company's maintenance management platform. Demonstrated proficiency in web development, software architecture, and team collaboration to deliver scalable, high-quality solutions for customers in diverse industries.

2015 – 2016

Internship: Software Development
- Completed a summer internship program, gaining hands-on experience in software development, web technologies, and agile methodologies.
- Assisted in the development and testing of new features and enhancements for Fiix's maintenance management software platform.
- Participated in code reviews, bug fixes, and troubleshooting activities, collaborating with senior developers and team members.

2016 – 2018

Junior Software Developer
- Transitioned to a full-time role as a Junior Software Developer, taking on increasing responsibilities in software design, implementation, and maintenance.
- Developed and maintained front-end and back-end components of Fiix's software platform using JavaScript, HTML/CSS, React, Node.js, and SQL.
- Participated in agile development practices, including sprint planning, daily stand-ups, and sprint demos, to deliver iterative software releases.

EMILY CHEN
Seasoned Software Developer

💼 Work Experience

2018 – 2021

Software Developer

- Promoted to a Software Developer role, assuming leadership responsibilities in feature development, technical design, and cross-functional collaboration.
- Led the implementation of major features and projects, including integrations with third-party systems, data migration initiatives, and performance optimization efforts.
- Mentored junior developers, providing guidance, code reviews, and technical support to foster their growth and development within the team.
- Contributed to the adoption of best practices, coding standards, and development tools to enhance team productivity and code quality.

2021 – 2023

Senior Software Developer

- Promoted to a Senior Software Developer role, recognized for technical expertise, leadership abilities, and contributions to the company's success.
- Led the design and architecture of new product features, leveraging emerging technologies and industry trends to drive innovation and competitive differentiation.
- Acted as a technical advisor to project teams, providing guidance on software design, performance optimization, and scalability considerations.
- Collaborated with product management, UX/UI design, and quality assurance teams to ensure the successful delivery of high-quality software solutions that meet customer needs and expectations

💼 Accomplishments

- Innovative Contributions: Enhanced Fiix Software's platform for diverse clients.
- Project Leadership: Led complex projects, ensuring quality and timeliness.
- Mentorship & Collaboration: Fostered team growth through mentorship and collaboration.
- Advocating Best Practices: Promoted productivity and quality through best practices.
- Technical Excellence: Recognized for innovation and scalable solutions.
- Client Satisfaction: Received acclaim for exceeding expectations.
