Raine Partanen

Computer Engineer

Ysitie 84
Tampere, Pirkanmaa, 33680
blockchainmaster2021@gmail.com

I am an blockchain developer & excellent web.

With 7+ years of experience, I've enjoyed a variety of amazing and interesting projects and tasks from clients all over the world.

I am always be honest with a client about deliverables, timelines, and what works and what doesn't.

The only thing that matters to me is giving my clients the best possible result for all their needs. If you're in the market for a new website & app (or an improved one), I'm happy to speak with you on your schedule to figure out the problem and quickly fix it.

I show you some my recent projects

Professional Experience

December 2021 - January 2022

BofB Tokenomics   BofB, United States

BofB is a cryptocurrency platform to trade bitcoin and a very few other top-performing altcoins such as Solana, Ether and Cardano among others. In terms of crypto, there are essentially two different types of exchanges. You can get more information at https://bofb.com/

I was charge of BofB tokenomics.

https://explorer.solana.com/address/45wdSjpSqZCk9mkqmq5Nh7beCEqqUJMJcVduwYCip5eq
